EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title has been changed to ---Seal Device for a Couscous Pan---

2. The following is an examiner's statement of reasons for allowance: The prior art includes FR 2719882; which discloses a similar seal and pan arrangement: the seal of the FR2719882 invention has a first portion affixed over the top of the lower part of the pan, and a second portion affixed to the upper part; however the seal shown by FR2719882 does not cover the junction as called for in claim 7.

Of note is FR2838038, filed by applicant and/or his legal representatives or assigns in France more than one year prior to the date of the instant application. There is no evidence that this application resulted in grant of patent prior to the date of the instant application.

Alos of note is Bultman (U.S. Patent number 1,593,650) and Hons (U.S. Patent number 2,289,497); which teach similar constructions.

Art Unit: 3673

An article from the Los Angeles Times is cited for its teaching of how a seal is improvised for a couscous pan (top of page 3).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
